INT. SWANKY LIVING ROOM - NIGHT

A raging fire burns in a large stone fireplace. A MAN, lets call him Shane, in a red robe stands facing the fire. He stokes it rhythmically at about waist level.

As we approach him from behind and he begins talking he slowly turns around and places the red hot stoking rod over his shoulder.

SHANE

Oh, hi. Didn't see you there.
Look, stoking your wood is great!
But sometimes it's inappropriate to
burn your wood on the street or in
your bosses office or while your
mother-in-law hangs the ornaments.
So how else to get rid of that
wood?

We pull out to reveal he's tenting a big one.

SHANE (CONT'D)

I'm glad you asked. Our
researchers have developed a brand
new pill for those unexpected,
unwanted, spontaneous erections:
Boneaway.

Another MAN, let's call him Braeden, walks in holding a single Boneaway pill. He wears a dark green robe and is also tenting a big one. He sensually feeds the pill to Shane, whose boner immediately disappears.

SHANE (CONT'D)

See.

He glances at his crotch and then smiles back at camera.

SHANE (CONT'D)

Spontaneous Erection Syndrome is a
serious issue affecting men, both
young and old, across the world.
But don't take it from me.

INT. MAN'S HOME OFFICE - DAY

A MAN, let's call him Connor, sits at his desk talking to an interviewer off screen.

CONNOR

I was having way to much sex. My friends couldn't believe- I couldn't believe the number of women I had slept with. And then I discovered Boneaway.

INT. BAR - NIGHT

We see Connor make intense eye contact with a very flirtatious woman. He shakes his head in a defiant "No." And walks out of the bar alone with a proud smile on his face, in slow motion.

CONNOR (V.O.)

Now I don't suddenly have to run to the nearest empty room or find the nearest woman. I'm no longer ashamed of the me below the belt.

INT. MAN'S HOME OFFICE - DAY - CONTINUOUS

Connor talks to the interviewer.

CONNOR

SES was my SOS, and now, I don't have to say Yes.

INT. SWANKY LIVING ROOM - NIGHT

Shane, now flanked by Braeden and another Man tenting another dark green robe, let's call him Isaac, talks to camera.

SHANE

This "downer" is sweeping the world. And it's time for you to say goodbye to your upper.

Braeden and Isaac each pop a Boneaway and lose their erections. Shane glances at each now flat groin area, and then smiles at camera.

SHANE (CONT'D)

Turns me on just thinking about it. Oh, wait.

He and the two guys laugh a little too much.

The screen blurs as the three slowly turn around and all three start stoking the fire using only the one stick located near Shane's waist.

The Boneaway logo appears.

SHANE (V.O.)

Now sold in most major drug stores.
Boneaway is not yet FDA approved.
Side effects can include shrinking,
shriveling, retraction, and aging
of the groin area. Do not take
Boneaway if you are pregnant, have
plans to conceive, or want to
continue getting laid on a regular
basis. If flaccid for longer than
72 hours try, Viagra.

The blurriness clears. Connor walks in and puts his arms
over two of the guys. Shane, Braeden, Connor, and Isaac all
look at camera over their shoulders.

SHANE, BRAEDEN, CONNOR, AND ISAAC
You'll be blown away by Boneaway.

BLACKOUT.
